Contents

Volume 74 (1991)

PHYSIOLOGY AND BIOCHEMISTRY

Multiple forms of the small subunit of ribulose-1,5-bisphosphate carboxylase/oxygenase in maize and spinach
by L. Ren, J. Salnikow and J. Vater (Berlin, Germany) ..... 1—6

Purification and characterization of multiple forms of Asclepain g from *Asclepias glaucescens* H.B.K.
by M. Tablero, R. Arreguín, B. Arreguín, M. Soriano, R.I. Sánchez, A.R. Romero and A. Hernández-Arana (Coyoacán and Iztapalalapa, Mexico) ..... 7—15

pH- and temperature-dependent β-glucosidase multiplicity in maize (*Zea mays* L.) is a proteolysis artifact
by A. Esena and C. Cokmus (Blacksburg, VA) ..... 17—26

Aspects of Ca^{2+} homeostasis in *Riccia fluitans*: reactions to perturbations in cytosolic-free Ca^{2+}
by H.H. Felle (Giessen, Germany) ..... 27—33

In vitro and in vivo phosphorylation of calpain-like protease of *Allomyces arbuscula*
by M. Ojha and B. Favre (Genève, Switzerland) ..... 35—44

Biochemical regulation during the mid-day decline of photosynthesis in field-grown sunflower
by R.R. Wise, D.H. Sparrow, A. Ortiz-Lopez and D.R. Ort (Urbana, IL) ..... 45—52

Isolation and antigenic characterization of sugar beet (*Beta vulgaris* L.) mitochondrial F_1- ATPase: studies of some Beta species and of the cytoplasmic male sterile Owen form
by C. Ouazzani and A. Bervillé (Dijon France) ..... 53—64

Invertases and growth factors dependent sucrose accumulation in sugarcane
by S. Venkataramana, K. Mohan Naidu and S. Singh (Coimbatore, India) ..... 65—72

Metabolism of the herbicide metribuzin by an *N*-glucosyltransferase from tomato cell cultures
by D.G. Davis, P.A. Olson, H.R. Swanson and D.S. Frear (Fargo, ND) ..... 73—80

Effect of triazole fungicides on the membrane permeability and on FC-induced H^+-extrusion in higher plants
by M. Radice and P. Pesci (Novara and Milan, Italy) ..... 81—88

GENETICS AND MOLECULAR BIOLOGY

The expression of a chimeric cauliflower mosaic virus (CaMV-35S) — pea vicilin gene in tobacco
by T.J.V. Higgins and D. Spencer (Canberra, Australia) ..... 89—98

A transposon tagging strategy with Ac on plant cell level in heterologous plant species
by C.M.T. Rommens, T.J.A. Kneppers, M.A. Haring, H.J.J. Nijkamp and J. Hille (Amsterdam, The Netherlands) ..... 99—106

Characterization of S1/mung-bean-type nuclease activity in plant cell suspensions
by G. Grafi, E. Meller, N. Sher and I. Sela (Rehovot, Israel) ..... 107—114

CELL AND TISSUE STUDIES IN VITRO

Application of in vitro pollination, ovary culture, ovule culture and embryo rescue for overcoming incongruity barriers in interspecific *Lilium* crosses
by J.M. Van Tuyl, M.P. Van Diën, M.G.M. Van Creij, T.C.M. Van Kleinwee, J. Franken and R.J. Bino (Wageningen, The Netherlands) ..... 115—126

High frequency recovery of intergeneric fusion products of tobacco (*Nicotiana tabacum*) and potato (*Solanum tuberosum*) by electro-mechanical selection
by M. Bromova and U.C. Knopf (Freiburg, Switzerland) ..... 127—133

Colchicine-induced polyploidy in *Citrus* embryogenic cultures, somatic embryos, and regenerated plantlets
by F.G. Gmitter, Jr., X. Ling, C. Cai and J.W. Grosser (Lake Alfred, FL) ..... 135—141

Erratum 143

REVIEW ARTICLE

Molecular approaches to the study of amino acid biosynthesis in plants
by G.M. Coruzzi (New York, NY) ..... 145—155

PHYSIOLOGY AND BIOCHEMISTRY

Purification and immunological properties of vanadate sensitive Mg:ATPase from plasma membrane of maize roots
by A-F.C. Hsu, D. Brauer, D. Lu, S. Rodenbach and S-I. Tu (Philadelphia, PA) ..... 157—166

Ambrosia maritima L: molluscicidal effects on the local snails *Lymnea natalensis, Bulinus forskalii, Bulinus globosus* and *Biomphalaria pfeifferi* from Senegal
by J. Belot, P. Bornarel, M. Diouf and A.M. Polderman (Dakar and Fatick, Sénégal; Leiden, The Netherlands) ..... 167—170

Variations of cell wall peroxidases in epicotyls of *Cicer arietinum* during growth
by P. Valero, G. Nicolás and E. Labrador (Salamanca, Spain) ..... 171—178

The expression of papain inhibitors during development of cowpea seeds
by K. Valevski S. Fernandes, F.A.P. Campos, R.R. Do Val and J. Xavier-Filho (Ceara, Brazil; Kiel, Germany) ..... 179—184

The composition of phytosterols, latex triterpenols and wax triterpenoids in the seedling of *Euphorbia lathyris* L.
by A.J. Koops, W.J. Baas and H.W. Groeneveld (Utrecht, The Netherlands) ..... 185—191

Triterpenoid biosynthesis in the seedling of *Euphorbia lathyris* L. from sucrose and amino acids
by A.J. Koops, E. Italiaander and H.W. Groeneveld (Utrecht, The Netherlands) ..... 193—201

The effect of glyceollin on soybean (*Glycine max* L.) tonoplast and plasma membrane vesicles
by J.L. Giannini, J.S. Holt and D.P. Briskin (Urbana, IL) ..... 203—211

Isolation and characterization of right-side-out plasma membrane vesicles from coleoptiles of *Zea mays* L. using reorientating sucrose gradients
by H.P. Haschke (Tübingen, Germany) ..... 213—219

Cytochemical staining of plasma membrane and tonoplast in maize coleoptiles by use of ruthenium red
by H.-P. Haschke (Tübingen, Germany) ..... 221—227

Response of arogenate dehydratase to changing physiological states of growth in suspension cultures of *Nicotiana silvestris*
by C.A. Bonner and R.A. Jensen (Gainesville, FL) ..... 229—234

CELL AND TISSUE STUDIES IN VITRO

High frequency embryogenesis and plant regeneration in isolated microspore culture of *Brassica oleracea* L.
by Y. Takahata and W.A. Keller (Morioka, Japan; Ottawa, Canada) ..... 235—242

Cryopreservation of nucellar cells of navel orange (*Citrus sinensis* Osb.) by a simple freezing method
by A. Sakai, S. Kobayashi and I. Oiyama (Kitaku and Hiroshima, Japan) ..... 243—248

Growth and morphogenesis of plant tissue cultures under mineral-oil
by J. Mathur, S. Mukunthakumar, S.N. Gupta and S.N. Mathur (Gorakhpur, India) ..... 249—254

GENERAL

The relationship between chloroplast number and genome size in *Zea mays* ssp. *mays*
by I. Ho and A.L. Rayburn (Urbana, IL) ..... 255—260

Enhanced uricase activity in tobacco mosaic virus infected tobacco leaves
by P. Montalbini (Perugia, Italy) ..... 261—265

Book Review ..... 267—268

Subject Index Volume 74 ..... 269—272

Author Index Volume 74 273

Contents Volume 74 ..... 275—276
